SG-OzVest

Model SG-OzPAK

SG-OzVest

Portable Ozonated Water Generator JetSpray

- Portable and Self-Contained – weighs less than 1.5KG
- Generates a powerful jetspray of Ozonated Water
- The Rechargeable Battery Pack lasts up to 12 hours
- Simple to use: Just attach input hose to any water tap
- Generates up to 2ppm of dissolved ozone in the jetspray
- Cleans, Sanitises and Deodorises almost any surface
- Kills up to 99.99% of Germs and Bacteria in seconds
- Absolutely safe for Humans, Pets, and the Environment as the MSDS is 0.0.0.0.
- 100% GREEN and CHEMICAL FREE Cleaning - The Ozonated Water reverts back into plain tap water in under 20 minutes
- Quickly Clean, Sanitise and Deodorise Toilets, Bin Centres, Rubbish Chutes, Shopping Centres, Childcare Centres, Medical Offices and Clinics, F&B Outlets, Pet Salons and Shops, etc.
- Save Water, Time and Manpower – no rinsing required

SIMPLE AND EASY TO USE

ACTUAL TEST RESULT BEFORE AND AFTER OZONE WATER

BEFORE APPLYING OZONE WATER
THE BACTERIA COUNT WAS 2728

AFTER APPLYING OZONE WATER
THE BACTERIA COUNT IS JUST 99

BUKIT TIMAH FOOD CENTRE GENTS TOILET	496	345	1143	29
BERSEH FOOD CENTRE GENTS TOILET	472	338	621	100

Test Procedure: The smell in the Men's Toilet at these 3 test sites was first measured for odour using the standard Cosmos Model XP-329 Odour Meter.

We then swabbed the urinals with the hospital Grade SystemSure Plus ATP meter and measure the relative bacterial count.

The Toilets were then washed down briefly with the Ozonated Water from the SG-OZPak and the readings were taken again.

The results: Odours immediately reduced by at least 30% with a single wash (repeated washing will further reduce the odours).

The bacteria count was reduced to a level that would be acceptable by the AVA for serving food on (100 counts or less). Theoretically, the urinals were sanitised enough to eat from!
